CG 618

Design and audio excellence.

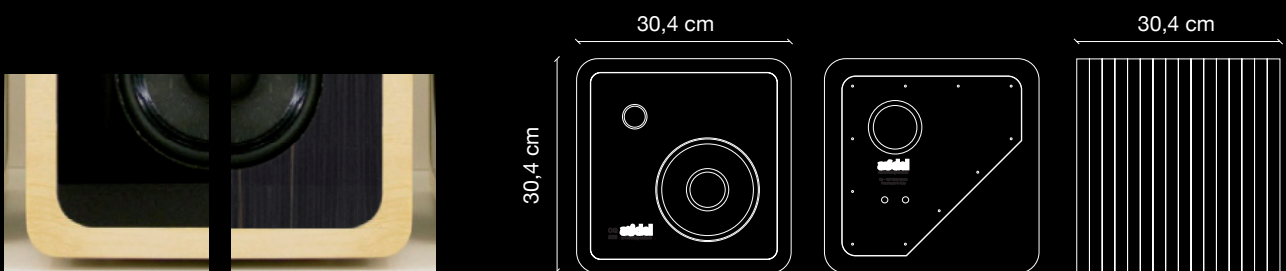

For the CG 618, 1.8 litres are enough to convey unrivalled feelings and a faithfulness without compromises.

The scene is optimally reconstructed, the details are perceptible from the first listen and the tone is unique. But this item does not forget to be bewitchingly beautiful as well.

Audel explores the “hi-end world” presenting Seas technology and the reliable Multipanel System, that secures the best performance one can get from a family of high quality transducers.

Silk tweeter and a very versatile 6,5” woofer for a fine item that proclaims the birth of Audel Artloudspeakers’ Reference family.

SYSTEM: 2 way vented box loudspeaker • CABINET: Multipanel System - Structure laminated birch wood • TWEETER: 27 mm high definition • MID-WOOFER: 165 mm cone driver. Edge coated reed/paper pulp cone, together with perfectly matched moving parts gives a smooth, extended frequency response • FREQUENCY RESPONSE: 40 Hz – 25.000 Hz, tuning ports included • SENSITIVITY: 88 dB • NOMINAL IMPEDANCE: 8 ohm. POWER HANDLING: 50W – 150W • FINISH: Surface finishing: beeswax • DIMENSIONS: 304 x 304 x 304 mm (HxWxD) • WEIGHT: 16.5 Kg per pair – net weight / 19.5 Kg per pair – shipping weight.
